Work Experience

August 2024-Present

MSIT Graduate Program Coordinator at Ateneo de Davao University:

I help in managing the MSIT and MIT programs including but not limited to enrollment interviews and assessments, class scheduling, matching professors with classes based on skills and other important factors, and student management and tracking.

August 2023-Present

Computer Studies Cluster Professor at Ateneo de Davao University:

I teach in both undergraduate and graduate programs under the computer studies cluster such as BSCS, BSIT, BSInfoSys, BSDS, MSIT, and MIT, I also advise and panel in capstones, theses, and other researches. The courses I teach are Data Structures and Algorithms, IT Social and Professional Issues, Business Intelligence (Software Development) Elective, Software Engineering 1, Human Computer Interaction, Business Process Management for Information Systems, Computer Programming 1, Evaluation of Business Performance for Information Systems, MSIT Advanced Seminar I on Blockchain, MSIT Web Systems and Technologies, MSIT Operating Systems, MSIT Seminars on Machine Learning, and MSIT Seminars on Enterprise Architecture.

August 2020-July 2024

Part-time Computing Education Professor at University of Mindanao:

I teach java, applied game physics, VR game development, object-oriented programming, intro to game design and development, data structures and algorithms, artificial intelligence, advanced game design, computer graphics programming, applied math for games, game networking, cyber ethics, game script writing and storyboard design, modeling and rigging, texture and mapping, game design and production process, information assurance and security, and human-computer interaction.

May 2019-July 2023

Computer Systems Manager at Philippine College of Technology:

I manage, monitor, and evaluate the PCT computer systems, internet network connections, and CCTV. Also, I developed, administer, and manage the PCT online enrollment, database, and LMS.

May 2022-November 2022

Part-time Systems Developer at DMMA College of Southern Philippines:

I developed, administer, and manage the DMMACSP Chatbot and Website.

April 2022-January 2023

Part-time Web Developer at Mindanao Kokusai Daigaku:

I developed, administer, and manage the MKD Website.

April 2018-May

2019 IT

Consultant:

I assessed, diagnosed, and provided solutions to different organizations. These solutions were

- Enterprise Resource Planning,
- Management Information System,
- Geographic Information System,
- School Management System,
- Content Management System,
- Database Management System,
- Knowledge Management System,
- Core Banking System,
- Medical Record System, and
- Web, Software, App, Mobile, and Game Development.

June 2016–April 2018

Program Head of BS Information Systems Program at Mindanao Kokusai Daigaku:

I successfully managed my faculty, students, program's curriculum, syllabi, and program book inventory.

Also, I improved some of the school systems such as replacing paper surveys to online surveys, improving the pay slip system, making an online game that replicated the whole school and its key employees as NPCs that can interact with the player to gain information on its enrolment, and made a system to automate the generation of class schedules.

Moreover, I taught multimedia, systems thinking, application development, and electives.

Thesis writing, and On-the-Job Training were handled by me, too.

March 2016–June 2016

Part-time IT Online Article Writer at dotTech:

I wrote online articles about different Operating Systems such as Windows 10, Mac OS X, iOS, Android, and Linux.

October 2013–May 2016

Part-time Licensed Financial Advisor and Certified Investment Solicitor at Sun Life Financial:

I was a knowledgeable innovator with expertise in app development, finance, and insurance was evidenced by a developed life insurance Android app.

November 2015–March 2016

Professor at Mindanao Kokusai Daigaku:

I taught algebra, multimedia, web development, database management systems, and application development.

February 2013–April 2013

Online Programmer at SpenCorp:

I worked with my team members such as the Team Leader, Graphic Artist, and the CEO most of the time and developed Android games such as Flight 13, and Wall Smash.

May 2011 – December 2012

Logistics Engineer and Technical Process Owner at Procter & Gamble:

I was a high-level strategic planner with experience in analyzing various operational processes resulting in an award as the Best Logistics Engineer, a certification in SAP Warehouse Management Key User, and a new designation as the Technical Process Owner of the RTCIS project within 1 year.

I easily adapt to new environments, readily develop rapport with colleagues, able to work well with groups or on my own, and with good leadership and management skills.

I have good communication skills, fluent in English language, and relate well with people from different cultures and socio-economic conditions.

I am able to handle public speaking, able to handle pressure from work, and willing to undergo series of seminars and trainings to improve my present disposition in order to contribute further to the organization.
